# Supplementary Explanation of Installing FMS in the Windows System Vista
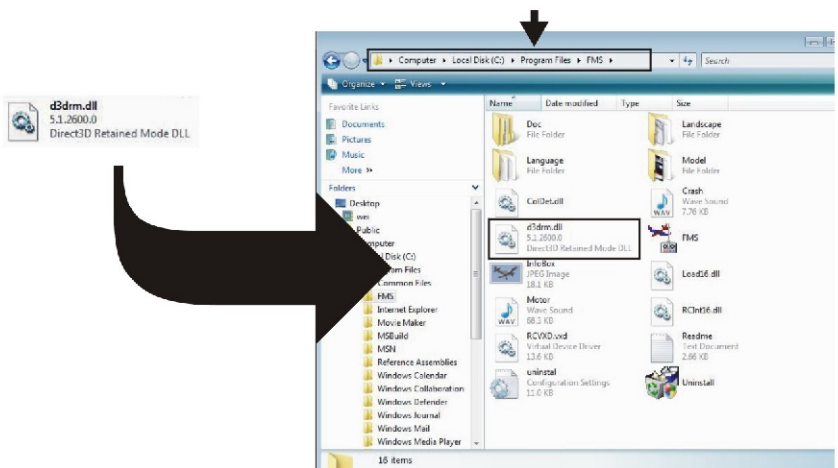

As the Windows Vista System does not support FMS, a problem as shown in the figure will occur when running the software after installation.

Solution is as follows:

1, after installing [FMS SETUP icon], download the Vista patch [d3drm.dll 5.1.2600.0 Direct3D Retained Mode DLL] (if it can not be found in the simulator CD) from the website of R/C Model Fun Co.,Ltd(www.skyartec.com)

2. copy the patch to FMS installation directory and you can use FMS, the usual installation directory is C: \Program Files \ FMS.

3、If you have any problem or need more information,please inform of me and send E-mail to me: maria@skyartec.com.
FMS 在Windows Vista下安装补充说明

　　由于Windows Vista系统不支持FMS软件，所以在安装完成运行时一般会出现如图问题：

解决方案如下：

1，在安装完 ［FMS SETUP］ 后，从泉速模型网站（www.skyartec.com）下载Vista补丁文件 ［d3drm.dll 5.1.2600.0 Direct3D Retained Mode DLL］（如果模拟器配套光盘没有此文件）

2，将补丁文件件拷贝到FMS的安装目录下即可，一般安装目录为C:\Program Files\FMS。

3，如果仍有问题或者想了解更多的信息，给我们来电子邮件：(maria@skyartec.com)
